## "The Last Trail"

By ZANE GREY

## "While New York Sleeps"

MONDAY, June 5—"While New York Sleeps," the  
1921 Cine-Melodrama, lavishly produced by William  
Fox. A great picture.

## "The Colorado Kluck"

FRIDAY AND SATURDAY, June 9 and 10—William  
Russell, the famous Star of Six Foot Four, in "The  
Colorado Kluck," superbly photographed in the Col-  
orado Mountains. Also Sunshine Comedy. If you're  
down-hearted, don't miss this program.

## BASEBALL

Vulcan - - - 8  
Champion - - 10  
Barons - - - 7  
Stavely - - - 1

Wednesday was the opening  
day of the Alberta Southern  
Baseball League, and the above  
is a record of the first games.  
It was a big day in Vulcan.  
The band was out, the Mayor  
pitched the first ball, and there  
was a great crowd of rooting  
spectators. The game will be  
detailed in our next issue.

## PRESS NOTICE

The Soldier Settlement Board have  
arranged another series of short  
courses for the wives of soldier set-  
tlers. A course will be held in Leth-  
bridge, June 19th to 23rd, 1922. In  
connection with the course, the Uni-  
versity of Alberta, Department of  
Agriculture and Public Health are  
again co-operating with the Home  
Branch in giving the lectures. Lec-  
tures will be given in dairying, pol-  
try, gardening, home nursing, cooking,  
etc. The Soldier Settlement Board  
will pay for room and board (up to a  
limited amount), also for transporta-  
tion for one in a family, while attend-  
ing the course. The lectures, which  
will be held in the Salvation Army  
Hall on 5th Street S., are free and the  
public are cordially invited to attend.  
An evening meeting will be held June  
21st, at which Mr. Ottewill, director  
extension work, will give an illustrat-  
ed lecture on "Britain, Historic and  
Beautiful." Further information, ap-  
plications forms, etc. may be obtained  
by writing the Soldier Settlement  
Board, Calgary.

## ARE GOOD SPENDERS

Our Canadian people evidently have  
money to spend for automobiles and  
their accessories. In the last five fis-  
cal years 46,484 passenger automob-  
iles and 7,494 freight automobiles  
were imported into Canada. The  
total value of the passenger cars was  
\$45,749,115, and the duty collected  
thereon \$15,960,121.96; the value of  
the freight automobiles was \$12,497,-  
714 and the duty collected thereon  
\$4,253,438.29. Another \$47,979,170 was  
spent for accessories and further  
duties of \$14,808,369.16. Evidently  
Canadians are not suffering a money  
famine.

## HALF HOLIDAY

Business Places to Close Wednesday  
Afternoons

We, the undersigned, do hereby  
agree to close our stores at 1 p.m. on  
Wednesday afternoons, commencing  
on May 31st, and continuing through  
the months of June, July and August:

McIntyre & Co.

## DOMINION DAY

What about a celebration on Dom-  
inion Day, July 1st? We note from  
the calendar that this falls on Sat-  
urday this year; is a legal holiday ob-  
served strictly by all and could and  
should be made the occasion of a real  
celebration. There are none of us  
but who can appreciate, in these  
times of stress, a relaxation from the  
every day cares of our labors and  
which would prove to be of benefit to  
us in the further promotion of our in-  
terests. So, let's step out and put on  
a sport's day—sports for the young,  
middle aged and old.

## WAGE COMPARISONS

For the year 1920 the average  
wages of farm help were the highest  
on record. For 1921 the returns show  
a very substantial reduction. For the  
whole of Canada the average wages  
per month of farm helpers during the  
summer season of 1921 were, for men  
\$67, and for women \$42, including  
board, the average value of which was  
\$22 a month for men and \$18 a month  
for women. In 1920 the correspond-  
ing averages were \$86 for men, in-  
cluding board, value \$26, and \$47 for  
women, including board, value \$20.

His Excellency the Governor Gen-  
eral of Canada, Lord Byng, will visit  
Lethbridge and Calgary the first week  
in July.

## HAIL INSURANCE

## PASSING CHEQUES.

One Year in Lethbridge Jail With  
Hard Labor

At the police court in Vulcan on  
Friday last, before Justices Charters  
and Lindsay, a case was heard that  
might create some interest. W. B.  
Hartman, of Reid Hill, was charged  
with issuing a cheque knowing it to  
be worthless, in payment of goods  
purchased. This cheque was duly  
presented at the bank and was dis-  
honoured. The accused was arrested  
and at court pleaded guilty. He was  
sentenced by the justices to one year's  
imprisonment with hard labor in Leth-  
bridge gaol for attempting to pass the  
worthless cheque. The sentence was  
suspended and restitution was made.  
People who buy bootleg sometimes  
get soaked.

## FLY THE FLAG

It is The Proper Thing—And It Looks  
Good

The Canadian Club in Calgary has  
been promoting propaganda for the  
flying of the Union Jack on national  
holidays and other proper occasions.  
A check-up was made on Victoria Day,  
and those who were neglectful will be  
respectfully reminded. We take the  
cue from the Canadian Club, and sug-  
gest to all in Vulcan who possess  
flags that they put them up on Dom-  
inion Day—the next national holiday.  
Many were flying on the 24th of May,  
but some were not. We take it that  
a suggestion is all that will be neces-  
sary.

## HON. ALEX ROSS

Minister of Public Works Pays Visit  
to Vulcan

Vulcan, on Friday last, for a short  
time, had a distinguished visitor. It  
was Hon. Alex. Ross, Minister of  
Public Works. Mr. Ross is making an  
auto trip over the southern portion of  
Alberta in connection with the gov-  
ernment highway construction cam-  
paign, but his visit to Vulcan was  
made the opportunity also for the con-  
sideration of a proposition which is of  
much local interest. With Mr. O. L.  
McPherson and Mayor Butchart, the  
minister examined the site that is so  
much desired by the town as a play-  
ground and park, and the promises  
made by him are entirely satisfactory  
to the mayor and municipal author-  
ities. The land required is govern-  
ment property.

## WET MEASURE

Two pints, one quart,  
Two quarts, one fight,  
One fight, two cops,  
Two cops, one Judge,  
One Judge, thirty days.

Everyone knows the difference now  
between right and wrong. If a thing  
is wrong it ought to be taxed.

Mr. and Mrs. W. F. Jennejohn made  
a motor trip to Calgary last week.  
The roads were good and the journey  
fine.

Mr. Jimmy McDonald, of Carman-  
gay, was in town on May 24, and at-  
tended the dance held in the I.O.O.F.  
hall.

Wm. Livingston and Art Cummings  
were over from Vulcan yesterday for  
the Victoria day vacation.—Nanton  
News.

Let us see amateur sport grow and  
multiply in town this season, with  
the young given every opportunity for  
healthy, bodily and mental recreation.

Have you shown your pride in your  
town by joining those who are en-  
deavoring to make the town more  
and more beautiful? Don't let your  
conscience prick you.

Do not post notices in the post-  
office. It is contrary to law, except  
as to notices from governmental de-  
partments. The postmaster has been  
warned against permitting the prac-  
tice and the public are being repeat-  
edly warned against it.

The dance at the Odd Fellows' Hall  
on Victoria Day was a great success  
in every respect. The attendance was  
capacity, the music by the Bluebird  
orchestra fine, and the cats provided  
by the ladies of All Saint's church  
were grant. It was a most enjoyable  
event and a big success financially.

Victoria Day was tag day in Vul-  
can, and the sale of tags was under-  
taken by the local boys and girls, and  
the result of their efforts was \$22.85,  
not a large sum, but a fair contribu-  
tion to the support of an institution  
for the care of children. Every little  
bit helps, and when the many contri-  
bute the aggregate is considerable. It  
was something accomplished in a good  
cause.

## ONLY A YARN

"Beg pardon, guv'nor," said the tramp—a particularly dirty and  
objectionable specimen—to a prosperous-looking citizen. "Would you  
give two shillings to improve and beautify your town?"  
"What's the idea?" was the non-committal and suspicious response.  
"Why, for two shillings I'll move on to the next village," the ob-  
jectionable one explained.  
He got the money.

## LOCAL ITEMS

Mrs. Tucker, of Calgary, is at pre-  
sent visiting with Mrs. Jennijohn.

Mr. and Mrs. D. E. Geddes were  
over from Vulcan yesterday visiting  
Mr. and Mrs. E. D. Malloy.—Nanton  
News.

Reports from Banff indicate a great  
improvement in the health of Mr. R.  
E. House, and this is good news to  
everyone here, for they are all his  
friends.

Excellent progress is being made by  
the Odd Fellows in preparation for the  
parade and other ceremonies on  
Decoration Day, Sunday, June 18.

Master Arthur Peterson is going  
about since Saturday last with his  
arm in a sling. He had a fall from a  
horse and broke the arm.

The Citizens Band rendered a splen-  
did concert at the Opera House on  
Sunday night. The attendance was  
not large. The weather conditions  
have not so far permitted the proposed  
out-of-doors concert.

Dr. E. W. Oldham, D.C., chiroprac-  
tor, paid his first visit to Vulcan on  
Tuesday, and will hereafter visit here  
three times weekly on Tuesdays,  
Thursdays and Fridays, for the prac-  
tice of his profession.

Blackie golfers were expected in  
Vulcan on Victoria Day to play a  
match with members of the local club.  
But they didn't come, and missed a  
good time on what is now a really  
good course. Perhaps some other  
day.

We must refer every week to the  
trees on our streets, for every week  
they are looking better. Just now  
the long and even rows of pretty  
green are being much admired. Al-  
ready they have made us glad of the  
expenditure in money and labor.

Vulcan and Red Cross baseball  
teams played a game at Vulcan on  
Victoria Day, the former winning by  
a big margin. It was a practice work-  
out in preparation for the coming  
league games, as members of both  
these teams play for Vulcan in the  
league.

"The Four Horsemen of the Apoca-  
lypse" was the attraction at the  
Opera House on Monday and Tuesday  
nights, and it merited even greater  
patronage than it received. It is a  
great picture, perhaps the best ever  
produced, and credit is due Manager  
Robson for the privilege of seeing  
such a magnificent production right  
here in our own home town.

The sale of pie and doughnuts, held  
under the auspices of the Women's  
Institute, at the Simington store on  
Saturday last, was a real success.  
Every pie was a good one and the  
doughnuts were great, and all were  
sold. The tea, cake and sandwich at  
fifteen cents was a winner. The W.I.  
will add considerable to its exchequer.

The plan to mark the auto route  
between Vulcan and Gleichen has  
developed to the extent that the poles  
have been painted for a distance of  
twelve miles from this point. Mr. A.  
G. Spooner, an official of the local  
auto club, was the artist. A sign at  
the north limit of the towns starts  
you right on the way to Gleichen.

Daily papers in Calgary and Leth-  
bridge, and the weeklies in the dis-  
trict, are giving prominent publicity  
to the organization of the new South-  
ern Alberta Baseball League, com-  
posed of Champion, Barons, Stavely  
and Vulcan teams. Prospects are that  
the league will produce some good  
ball and fine entertainment. Every  
town is behind its team and there will  
be plenty of rivalry.

The junior baseball team made the  
trip to Champion on Victoria Day and  
succeeded in defeating the team of  
that town by a close score. The re-  
turn game was played at Vulcan on  
Saturday afternoon, the visitors win-  
ning very decisively. The games were  
not of a particular classy order,  
though they demonstrated that there  
are quite a number of lads who will in  
a few summers give strength to the  
senior organizations. The boys should  
be encouraged and instructed, and no  
doubt they will be. The Community  
Club has already contributed to the  
equipment of the local team.

Operations have been commenced at  
the mixing stations. Here bran and  
sawdust by the tons and molasses and  
arsenic in lesser proportions are com-  
bined to produce the dope that is cal-  
culated to stop the grasshoppers. And  
it will certainly do the trick if prop-  
erly put out by the farmers and land-  
owners. The grasshoppers have made  
their appearance in some places, and  
there is every evidence that they will  
be along here in a short time. One  
big engine and two mixers constitute  
the main portion of the plant at the  
local station. Farmers are requested  
to bring sacks when making request  
for poison bait.

## LOCAL ITEMS

Mr. W. E. Butchart was a business  
visitor to Blackie on Monday.

Mr. J. M. Scobble, of High River,  
spent the 24th in town with his fam-  
ily.

Mr. and Mrs. D. E. Geddes spent the  
holiday visiting with friends at Nan-  
ton.

Mr. John Dewie was a visitor to  
High River on May 24, visiting with  
his brother.

Mrs. S. Forrester and Mrs. A. J.  
Kennedy returned from Calgary on  
Saturday last.

Mr. R. Marshall, left on Tuesday  
evening for Calgary where he will  
visit for a week.

Miss Josie Muts arrived in town on  
Tuesday from Calgary, and will visit  
with her mother for a while.

One of the local medical officers,  
Dr. Carson, and Mayor Butchart, in-  
spected the town on Tuesday.

Miss Ethel Hodge spent the holi-  
day with Mrs. Harry MacDonald at  
Carmanagay.

D.D.G.M. Roy Ferguson paid a visit  
to the Lomond L.O.O.F. Lodge on  
Thursday evening last.

The more horse power there is in  
the motor the greater need of horse-  
sense in the driver.

Miss Gee, of Toronto, arrived in  
town on Sunday evening to take a  
position with Buck & Howson.

Mrs. Frank Keiver will not receive  
on Tuesday, June 6th, nor again this  
season.

Miss Mabel Kenny, who underwent  
an operation recently at Calgary, re-  
turned to town on Monday morning.

A business may be assisted by the  
application of hard luck stories, but it  
does not say much for the business  
ability of the applicant.

Miss Reta Seaman returned to her  
home at Vulcan Saturday, after a few  
days visit here with Mrs. W. H. Mc-  
Cutcheon.—Nanton News.

Messrs. A. G. Spooner, Roy Walker,  
T. B. LeBow and Art Cummings,  
motored to Black Diamond on Sunday  
last, returning the same day.

Mr. and Mrs. Dyce Allan and  
daughter, Margaret, motored to High  
River on the 24th, and spent the day  
visiting with Mr. and Mrs. Hadden.

Mrs. W. McKenzie, of Calgary, is  
at present visiting with her brother  
in town, Mr. L. H. Stacks. Mr. McKen-  
zie spent the week-end.

Mrs. McRae, who has been visiting  
in the district for some time, left on  
Friday evening for Hespero, where  
she will visit with her daughter, Mrs.  
C. H. Wheeler.

Miss Annie McKenna and Miss  
Hilda Cook, both of Calgary, were  
visitors in town over the holiday, the  
guests of Mrs. Tommy Logan, Miss  
McKenna's sister.

Mrs. Everett Depoe left on Friday  
evening for Couer d'Alene, Idaho,  
where she will visit for some time  
with her parents. She was accom-  
panied by Miss Bertha Adams.

The 5:35 a.m. train on Thursday  
morning last was held up at Ensign  
for over two hours, owing to engine  
trouble, causing much inconvenience  
to those returning to the city after  
the holiday.

Mrs. Chew, constituency convenor of  
the Women's Institute, will address  
the members of the Golden Rule In-  
stitute at the home of Mrs. D. H. Gal-  
braith, on Thursday, June 1.

The members of the Union Church  
Ladies' Aid held a regular meeting on  
May 25 at the home of Mrs. George  
Eamor, by whom they were splendidly  
entertained. It was decided that  
meetings would not be held during the  
months of July and August. The next  
meeting will be held on June 29, at the  
home of Mrs. Brunton.

Though no definite move has yet  
been made in the matter of a celebra-  
tion at Vulcan on Dominion Day, it  
has been the usual thing, and many  
these are who are making their cal-  
culations that way. It has been a  
town event, and at a meeting of the  
council this week it will be a subject  
for consideration. One splendid fea-  
ture is available. The four teams in  
the new baseball league can be had  
for a tournament on that date.

The voluntary contributions and the  
result of the canvas made for special  
prizes for the Vulcan and district  
school fair have been surprisingly  
great, and when the species are added  
to the regular list this school fair will  
have a prize list that will perhaps  
have no equal in the province. The  
promoters are receiving gratifying  
support from almost everybody; and  
this means success—success in large  
measure.

There is something interesting in  
the window of Messrs. Flood, Whicher  
& Elves office. For some weeks  
there has been a couple of sods or  
clumps of earth in the window. In  
this earth there were any number of  
grasshopper eggs. The sun shone hot  
in the window on Tuesday afternoon,  
and about four o'clock a bunch of lit-  
tle hoppers made their appearance,  
and they are the liveliest little beg-  
gars you ever saw. This window for  
some time will be an attractive spot.

## The Vulcan Advocate

An Independent Weekly Newspaper issued every Wednesday afternoon at the office of publication, Vulcan, Alberta. Subscription price per year, in Canada, \$2.00; United States and other countries, \$2.50. Advertising rates will be furnished on request.

THE VULCAN ADVOCATE  
VULCAN, ALBERTA

### TARIFF AND POLITICS

"Take the tariff out of politics, and play no favorites" is the suggestion of a noted man connected with the steel and iron industry in America. The tariff question should be delegated for investigation to a commission of well paid, high minded, intelligent and competent and non-partisan men, authorized to ascertain and communicate the facts and figures. Their reports should be frequent, so that, if deemed necessary, a change in or amendment to the tariff laws could be made at any time parliament is in session. The question is will politicians agree to such a sane business proposition. We doubt it.

### EDITORIAL NOTES

The price of soft drinks are likely to soar owing to the recent increase in the budget.

A country is not made great by the number of square miles it contains, but by the number of square people it contains. It is also true of a town.

Is not the best place to build monuments for oneself not in the graveyard at the end of one's journey, but in the hearts of our brother mortals as we journey through life?

The increase in population of Canada during the past ten years was relatively twenty per cent. higher than that of the United States. But you won't see this statement of fact in America's new school books.

Lord Astor, while in Canada recently, declared that he would gladly sell his title for two cents to any representative tramp who would take it away on the tail of his coat. Personally, we refuse to accept it?

"If golf interferes with your business, give up the business," said Dr. Franklin P. Millard of Toronto in an address on Saturday before the delegates to the Pennsylvania Osteopathic Association. "No man, no matter how busy he is, should sacrifice his life for business or profession," he said.

Canada is still importing more from the United States than she is exporting to that country but her imports are gradually showing a big decline. She is exporting more to Great Britain than she is importing from there, according to the late statistics of the Dominion bureau.

The war cannon captured from the Germans and given to various towns are generally speaking, sadly neglected and unless the rust is scraped off and a fresh coat of paint administered they will soon go to decay. Some action should be taken with all such cannon.

Approximately seven million dollars was waged at the Woodbine race track, Toronto, during the first five days of the late race meeting held there. This does not look like the scarcity of ready money, but may look like the industrial inability to place it in more substantial channels.

"I would here like to inform the American Ambassador that Australia is ten thousand square miles larger than the United States, a fact that was drilled into me daily with a request that I would repeat it, especially to Americans," Lord Northcliffe declared in London. That information may be new to more than Americans.

The Progressives, advocates of the wheat board, are jubilant over the turn that events have taken during the last few days, and particularly as now they have got the resolution through committee. If the board gets through parliament it will be then up to Alberta and Saskatchewan to put it into effect as the Manitoba legislature can't meet until about September, and any action taken must be independent of that body.

### NEWSPAPER COMMENT

Action Free Press—Mr. Rockefeller must have been making another donation to some public benefaction, gasoline prices advanced another cent or two last week.

Western Home Monthly: A book "prophecies" published in London says that "the year 1926 is destined to shake the world to its foundations, both physically and politically." It is hard to believe that there are any individuals with intelligence enough to be able to read, and at the same time so feeble-minded as to think such "prophecies" worth reading and paying any attention to. It would appear that there are some such people; otherwise, one would imagine, such a book would not be printed—though it may well be that this is not a sound conclusion, for there are many books printed not because there are people who want to read them, but because the authors of them are possessed by a consuming desire to have them printed, and have some money with which to pay the printers for printing them. Of all the multitudinous forms of human foolishness surely the paying attention to such crack-brained "prophecies" (or catch-penny knaves as some of them are) is the most foolish.

Petrolia Topic: Last week's Petrolia Gazette contained a half page advertisement signed by fifteen business firms in that town containing the following announcement: "Owing to the unjust treatment handed out by many in connection with credits we, the undersigned, in order to be just to everybody, are placing our business on a strictly cash basis on and after April 1st." Why could this not be carried into effect in all lines and in every town? Departmental stores do not have to reckon on "bad debts" in their mail order department at any rate and this is reflected in the prices they are able to quote on many lines of goods. If every business was put on a strictly cash basis we venture the assertion that prices would be materially lowered on many lines of goods, and many men who do nothing in the way of work and appear to prosper on it would have to go to work and stay at it.

Commercial Review: Progress is born out of the womb of the individual mind. The history of all nations, past and present, prove that statement to be true, nationally, provincially, municipally and commercially. All the activities of the human family, no matter in what part of the globe they are situated, go to show that progress and uplift are inaugurated and maintained by the force of individuality. It is one of the most profound truths that groups do not think, and any action they may take are but the expression of the individual minds that for the moment dominate the group. We could give a long list of situations from the time of Moses to that of H. W. Wood to confirm this statement, but why take up your time? You have but to reflect and they will pass in review much plainer than we could hope to make them. We repeat that progress does not lie in organizations, institutions, or groups. It abides only in the individual human heart. What Nation has ever existed whose people have not been lifted to a plane of higher civilization by this force? We are told that we in Canada must look for further progress and development in this Nation of ours to the formation of our citizens into economic class groups, thus developing a class conscience that can be aid to function successfully only when it dominates all other classes and thus becomes the dictator of the conditions under which all our people must live and work.

### LORD'S DAY ACT

Plans to prosecute under the Lord's Day Act will be issued to the Calgary chief of police in any case where an offender is caught selling foodstuffs, such as fruit and groceries, as well as bread, over the counter on Sunday. This ruling does not apply to the sale of ice cream in the parks or in restaurants.

Grasshoppers are beginning to hatch out in many places in the more southern portions of the province now, and the department of agriculture emphasizes the fact that this menace is likely to be much more serious this year than ever before. The statement has been made by those in authority that unless the utmost co-operation is exercised by every farmer in the districts affected, in the movement to stamp out the pest, the entire crop of whole districts will be threatened with destruction. These are not idle statements made merely to alarm the farmers, but are made after careful study of the situation and with the object of impressing upon every individual farmer the importance of keeping on the job in the campaign against the pest. It is essential that every farmer do his utmost. The failure of one farmer to take the proper steps to kill hoppers on his place may undo all the work of all the other farmers and organizations in his district. Officials of the agricultural department have been touring the various districts during the past week completing organization for the campaign. Rural municipal councils are roused to the seriousness of the situation and are actively preparing to do their part.

**DUNLOP** **MEANS** **BIG TIRE MILEAGE**

**Dunlop Double-Life, High-Mileage Cord and Fabric Tires Will Save You More Money Than Ever**

Compared to a few years ago tire users are getting easily double—and even more than double—the mileage in the tires of to-day.

Ten, twelve and fifteen thousand miles are just average mileages to-day. And the records on the road show that Dunlop Cord Tires and Dunlop Fabric Tires are even exceeding these mileages.

With Dunlop big mileage you have rock-bottom prices and paramount tire quality—tire quality that is accepted as standard to-day, and which other makers are vainly striving to duplicate.

When you can get a tire with prestige back of it like DUNLOP, and with practically an unlimited guarantee, why chance your life on a second-rate tire at any price?

In Dunlop Cord Tires you have "Traction" and "Ribbed" to choose from.

In Dunlop Fabric Tires you have "Traction," "Ribbed," "Special," "Clipper," "Plain."

## THE GRASSHOPPERS

While grasshoppers are now hatching out in millions in Southern Alberta, the Department of Agriculture urges upon the officials of municipalities and the farmers, the necessity of economical use of poison bait, and warns against municipalities being stampeded into ordering supplies by the wholesale, and permitting their use indiscriminately. Not only does indiscriminate use of poison material result in waste of supplies that are somewhat difficult to get, but it also results in ineffective measures against grasshoppers.

The demands that have been made by the various districts for the ingredients of bait have far exceeded the expectation of the Department of Agriculture, which had purchased earlier in the spring, all of the available bran in the Province and had imported large quantities from as far east as Ontario.

Present indications are that there is very little bran left in the entire Dominion, since all the Prairie Provinces have purchased very heavily. Nearly all of the immense stocks obtained by this province have been distributed, and it may be impossible to fill repeat orders from districts in which the present supplies have not been used with the utmost care.

The greatest economy in the use of the bait will be effected in districts in which the breeding grounds are located as soon as the grasshoppers hatch, in order that the latter may be poisoned while they are still confined to comparatively small areas.

Some idea of the good effects of the organized campaign against the hoppers is given by reports which come from Manitoba and Saskatchewan. In places in these provinces where last year there was a combined effort to poison out the hoppers very few indications of eggs have been seen this year. This is a note of encouragement for the farmers in Alberta.

Reports have been received at Edmonton to the effect that a large number of one of the more harmful species of grasshoppers have already been hatched. Specimens that have been seen were those of the two-striped grasshopper, and they are very abundant, together with the eggs of the lesser migratory grasshopper, in stubble land, particularly in the more sandy portions of the province. We would strongly caution all farmers who stubbed in rye last fall to watch these fields very carefully from now on.

## NEW COMMISSIONER

Capt. H. G. Dimsdale, who for the past few months has been in charge of engineering work on the Lacombe and North Western Railway, has been appointed highways commissioner of the province under the new legislation creating a highways board and commissioner. Capt. Dimsdale is known as one of the most expert railway and road construction engineers in Canada. During the war he served overseas in several capacities and made a particularly enviable record in France in road and railway construction under General J. W. Stewart, the well known contractor, who had charge of those forces in France. The government has selected Capt. Dimsdale from among several applicants for the position, and is particularly fortunate in being able to make a promotion to the new position from within the ranks of the government service. Following the war he was engaged for some time in road construction overseas, afterwards coming to Alberta. He was engaged for some time by the Dominion Government as road engineer in the Water- ton Lakes Park. He was a candidate for the U.F.A. in the riding of Grouard against Hon. J. A. Cote in the provincial elections last year. He has had an extensive experience in railroad and highway construction in Canada. In his new position, Mr. Dimsdale will be in charge of high- Hon. Alex. Ross, minister of public way construction in Alberta under works.

## ARE YOU COMMONPLACE?

Nearly all children like animals, and admire some of them, especially when the animals are young, says Arthur Mee, editor of the Children's Magazine.

Who can help being charmed by kittens when they are becoming active? What is there that is more graceful and so full of its own pretty fancies? A kitten is itself!

Which is your least favourite animal? Is it not the sheep? A lamb is very well in its innocence and simplicity—but a sheep! Well, a sheep is just commonplace. Every sheep seems bent on being exactly like every other sheep. So it is the dulllest of dumb creatures.

You would not be like that. But are you? Think! Don't you want to do what others do, and to wear what others wear? The fine name for that is—fashion. The real thing is being commonplace, like the sheep.

But that is just the way to be a nobody. What the world wants from each of us is individuality.

Gordon Campbell's oil well at Kevin, Mont., 18 miles south of the Alberta border, shows production of 250 barrels per day. This news establishes the Sweet Grass Arch, which extends into Alberta, as a real commercial producer, and big developments on both sides of the line may be expected.

## GENERAL NEWS

Hotel proprietors of Alberta will meet in Calgary on June 2 to form an organization.

Earl Cook, the member for Pincher Creek, planted 12,000 trees on his farm this spring.

His Excellency the Governor General of Canada, Lord Byng, will visit Lethbridge and Calgary the first week in July.

Four men were killed at Camp Braggan, N.S., on May 25, when a projectile struck a tree and exploded prematurely during target practice of the 5th field artillery.

E. W. Holderness of Walton Heath, won the British amateur golf championship on May 27, by defeating John Caven of Cochrane Castle, Scotland, one up in the final round.

The sight of the dandelion on the ground last week rushed things somewhat for the housekeepers, to finish up housecleaning and get the medicine bottled up for the coming year.

J. D. Smith, superintendent of the seed and weed branch of the department at Edmonton, has resigned and the work will be performed by W. J. Stephen, formerly of the Claresholm School of Agriculture.

Rain has fallen in the Lethbridge and Macleod districts on Sunday last and was quite continuous all day, amounting to from a drizzle to hard showers, and was of great benefit to the crops. It was reported to have been quite general.

The cut worm has put in an appearance around Granum and other parts. Hereabouts we have not heard of this pest doing any damage. It is said a sure remedy for cutworms is to scatter wood ashes on land where cut worms are said to be located.

Attention is called to the fact that requests for round-ups of cattle, before being granted by the minister of agriculture, must be signed by at least ten persons who shall be responsible for the conduct of the roundup in accordance with the regulations.

A rumor was current here last week that a cyclone had struck Medicine Hat and that several inhabitants were killed. Fortunately it was only a rumor and we learn the citizens of the city that claims "hell for a basement" are going about in the even tenor of their way.

The F. W. Woolworth Co., is reported to be in an unusually strong position, according to the latest issue of the Financial Times, which says that the company now has nine million dollars on hand and in banks and no loans of any sort. Woolworth has 1155 stores in operation.

A sad accident happened out at Black Diamond yesterday. The little two-year old son of Mr. and Mrs. McRae wandered away and fell over the embankment into Sheep Creek. When found about ten minutes later he was quite dead. His little head appeared to be bruised so it was very likely he was stunned and unable even to call out.—Okotoks Review.

Complaints have been received by the department of agriculture that in some cases where cattle have been impounded, these have been sold without being fully or properly described in the advertisements. The department will proceed to take steps against any poundkeeper found guilty of improperly or insufficiently describing animals impounded and to be offered for sale.

The Lethbridge division agents of the C.P.R. were in Lethbridge in force on Friday last, for a conference with officials at the Alberta district. Matters of policy for the good of the company were discussed. The C.P.R. have a faithful lot of employees and all of them uphold the company they represent. Overand of Okotoks, Gamble of Aldersyde, Moir of Nanton, E. H. Mark of Claresholm, Hart of Blackie and W. Mack of Kipp were present.

## BRIGHTER CONDITIONS

The end of the first quarter of 1922 finds the country emerging from the business depression which began in the summer of 1920, and reached its lowest point in the summer of 1921. The evidences of this recovery are numerous and unmistakable, says the Commercial Review. Among these evidences there are six that are of fundamental importance. They are as follows:

1. Prices of staple raw materials are advancing.
2. The production of iron and steel is increasing.
3. The prices of stocks and bonds are rising.
4. The volume of unemployment is diminishing.
5. Interest rates are falling.
6. The amount of building construction is growing.

It is safe to say that these signs of recovery are reliable, for if employment, construction, production, and prices should continue to advance, prosperity would shortly become general. It is not safe, however, to predict how long they will continue to advance, or that the recovery now under way will be complete.

In the long depression from 1893 to 1897 there was a recovery of business to almost normal proportions in 1895 followed by a second decline. It would be unsafe to predict that such a development could not be repeated this time, but it is safe to state that the definite and typical symptoms of business recovery are now present and that improvement is under way and gathering momentum.

## THE USE OF EYES

One of the uses of the Great War—not at all worth its cost, but still of some value—was that it taught large numbers of men to use their eyes at all distances. Such a use of eyes is a point that ought to be remembered in all education.

Three people out of four who live in towns only look habitually close around them. They rarely practise their eyes a quarter of a mile away, and almost never a mile around, unless they have special reasons for doing so. And yet the beauties of the earth are spread with equal hand far and near.

While soil drifting has not done very much harm as yet this year in this locality, it would appear that down south considerable injury has been done to growing crops.

## THE VULCAN ADVOCATE

## Trade-at-Home Campaign

## Local Markets are Essential

The first essential in the development of any business is the possession of a market. The manufacturer must have a market for his products or he cannot succeed, no matter how valuable those products may be or how efficiently his plant may be operated. The wholesale merchant and the retail merchant may have the choicest stocks of goods, but they may as well go out of business if they have not a market where they can dispose of their stocks. The farmer may produce bumper crops, but they will rot upon the ground if he cannot find a market for them. The wage earner's skill and muscle bring him no returns unless there is a market for his labor.

The question of markets is the big one in every line of business and in every community the question is a vital one. In each community, which must be taken to include not only all the people who live in the town but the farmers who live in the surrounding country as well, there are two sides to the market question. The business men of the town must have a market for the things which they have to sell. Otherwise they cannot continue in business. At the same time the farmers must have a market for the things which they raise or they may as well go out of business.

## WHEN EITHER FALLS BOTH SUFFER

The merchants of the town can provide a market for the products of the farmers and the farmers can provide a market for the goods which the merchants have to sell. As long as each class of citizens provides a market for the other class all is well and the goose hangs high, but when either class fails, to provide a market for the other the goose is cooked, not only for the class which is deprived of the market, but for the other as well.

The farmer has a right to expect the town which is his natural trading point to provide a market for his products, and the town is not performing its proper function as the trading centre of its community if it does not see that such a market is provided. The responsibility of looking after the fulfillment of this obligation rests largely upon the merchants of the town. The farmer is a producer and he must dispose of his products before he can become a consumer. It is, therefore, not only right but necessary from a business standpoint that the merchants should aid the farmer in turning his products into money. Otherwise the farmer naturally will have no money

to spend in the stores of the town.

## OBLIGATION ON FARMERS

On the other hand, the merchants of the town have a right to expect the farmers to provide a market for the merchandise which they have to sell, and the farmers are not doing their duty to their community if they do not provide such a market. In this case, also, it is not only right but it is necessary to the prosperity of the farmers that they should aid the merchants in turning their merchandise into cash. Otherwise it is obvious that the merchants will have no money with which to buy the products of the farmers.

This is a double-barreled proposition and the obligation rests equally upon both the merchants and the farmers to maintain the markets which are essential to both classes of citizens. Any town which would import from points hundreds of miles distant the farm products which it could buy at home would be pursuing a very short-sighted policy, for it would be making it impossible for the farmers in its territory to buy the goods of its merchants. As a matter of fact no town does this unless it is forced by unusual conditions to do so. A town may be located in a community which is not productive enough to meet the local demands, and in that case it is forced to import farm products, but the town which is compelled to do this is at a disadvantage from a commercial standpoint unless it is essentially a manufacturing town, in which case its products are sold to other communities and bring in enough cash to offset that which is sent away to purchase farm products.

## MUST HAVE OUTSIDE BUSINESS

In the average community, however, the town is dependent for its prosperity upon the money received from the farmers in the ordinary channels of trade, rather than upon that obtained from the sale of its own products. In the average town the merchants cannot make money and continue in business if they are dependent solely upon the people of the town for their business.

No business can last long with "everything going out and nothing coming in," and it is equally true that no business can be operated on the principle of "everything coming in and nothing going out." To maintain the balance which is necessary to the maintenance of prosperity in a community there must be an even trade between the business men of the town.

### RED CROSS NEWS

Miss Addie Dunham spent Sunday at home.

These high winds are hard on basket ball goals.

Mr. Kelley left last week for the hills with a bunch of cattle.

Highland school was closed from the 19th till the 23rd owing to Mrs. Greenlee's illness.

Misses Tila Hartley and Charlotte Carlson paid flying visits to Red Cross friends, May 24.

There was no school at Red Cross May 25. The teacher was missing. We wonder where he was!

Mr. Willard Snow and Mr. Joe Manly have also taken stock to their summer pasture, at the Bow.

Mrs. T. F. McCarthy and small son, Donald, are visiting with Mrs. McCarthy's brother, Mr. C. H. Kelley.

Two things we are proud to say of our base ball team—they know how to take a drubbing, and they do not play ball on Sunday.

We are all ready for rain. The grain don't need it just yet, but it would be mighty encouraging to get a shower occasionally.

A special program and special entertainment is being prepared for "Children's Day", the second Sunday in June. All children are cordially invited, and parents to come, and bring them.

Seeding is over, and summer fallowing is in full swing. The trob of gasoline tractors may be heard on all sides. Also the "get up, whoa, han, gee, of the man behind the plow" or more correctly, upon the plow "haying" along, six or eight horses.

We were unable to ascertain the score of the baseball game between Vulcan and Red Cross accounts in Vulcan the 24th, the last accounts, it was still going up! It transpired that our star pitcher was made dizzy by the fast playing of the Vulcan "Bronces", and by the way, it is suggested that "Bob" Simington change the name of his team to "Benedicts" as being more suitable this year.

### BERRYWATER NEWS

For the past couple of months, owing to bad roads at first and busy times later, there has been a scarcity of items to report.

A meeting of the U.F.W.A. was held on May 10 at the home of Mrs. Harry Amey. A report was given concerning the rest room. The secretary was authorized to mail copies of the U.F.A. paper where necessary. A paper was read which had been given at the U.F.A. convention by Mrs. Roper. After singing "O Canada" the meeting adjourned and lunch was served.

On May 23, the U.F.W.A. met again, this time at the home of Mrs. La Chapelle. Mrs. Campbell was appointed representative to attend a meeting concerning Marquis school fair. It was decided to give a school fair prize of \$5.00 each to Marquis and Royal, the subject to be decided later by a committee. A request was received from the Juniors for a loan to finance a delegate to the Junior University Week at Edmonton. This was granted. A report of the U.F.W.A. convention was again given by Mrs. Oldfield, as owing to bad roads last winter many were unable to hear this report. After lunch the gathering dispersed.

The next meeting will be held on June 14, at the home of Mrs. Mills. A paper will be given by Mrs. Adair, subject, "Care of Woman."

### BRANT NEWS

Mrs. J. Eversman spent the week-end at the ranch.

Services were held in the Catholic church on Sunday.

Mr. Thos. Johns was a Calgary visitor on Friday.

Mrs. Wm. Thomas was a Calgary visitor on Saturday.

Mrs. Ben Holden is visiting her daughter Beth at Trochu.

Faint heart never gets mixed up in a breach of promise suit.

The mixing of the grasshopper poison is now running full force.

Mr. R. McErvin was visiting at the D. McDonald home on Friday.

Mrs. E. Carey of Calgary is visiting her sister, Mrs. N. McColman.

Too many folks are interested in business that is none of their business.

Any chronic borrower soon begins to wonder why everyone he knows is broke.

Mrs. E. Carey is spending a few days at the home of Mr. and Mrs. J. Green.

The average man is usually too brilliant or too stupid to become famous.

Nearly all of the farmers are now very busy cultivating and summer fallowing.

Saxophone players go in bands, because it's dangerous to play one alone.

Mrs. T. J. Parker and daughter, Mary, left Monday night for Utah to visit relatives.

A woman never thinks of anything special to say until she hears some other woman talking.

Services were held in the M. E. church on Sunday. A goodly number were in attendance.

Mr. and Mrs. D. MacLaren motored to Calgary Saturday morning and returned Sunday evening.

Mrs. W. (Dad) Fletcher was a Thursday evening caller at the home of Mrs. L. J. St. Clair.

Mrs. J. Heckle, Mrs. Geo. McKay and Mrs. T. Johns were visitors at the school on Friday afternoon.

Mr. Frank Heckle accompanied by Mr. L. St. Clair visited the boys at Mr. Heckle's farm near Ensign.

Mr. and Mrs. G. McKay and Mr. and Mrs. Frank Heckle motored to Mr. Heckle's farm near Ensign, on Tuesday.

There will be no services in the Brant M.E. church on Sunday, June 4. Rev. Mr. Fawcett will be attending the annual convention.

Mr. Andrew Olsen and brother Henry, moved to Andrew Olsen's farm near Black Diamond where they will do some summer-fallowing.

Mrs. Harry Christianson and Mrs. Sam Stewart were Brant visitors Thursday. They also visited Mrs. Christianson farm, southwest of Brant.

Mr. T. J. Parker returned from the foot hills Wednesday after taking his cattle to grass. He says the hills are much dryer than down in the Brant district.

The enthusiastic people of Brant and district gathered together Monday, May 22, at the office of the Beaver Lumber Co. to plan and talk over when they should have their annual Sport Day. It was decided on for June 14. They also elected their officers and committee for the occasion. Another meeting was held the following Saturday and they decided on the prizes for bucking races, etc. The Women's Institute will serve dinner. Everybody remember the big day—June 14.

The Brant Ladies Aid held their monthly meeting at the home of Mrs. J. A. Kelly on Thursday. Quite a number were present, and all spent a very enjoyable afternoon. They decided on having a plant and home cooked food sale on Saturday, June 3.

### KIRKCALDY NEWS

The Institute met at the church Thursday on May 25. There was a good attendance and one more member was added to the list. Mrs. Fox gave us some good advice on the raising of turkeys. Miss Taylor gave a short talk on orphanage work. Mrs. Gossett and Mrs. Gardiner served tea. The next meeting will be held at the church on June 8, when we will entertain the Golden Rule Institute.

Seeding is completed in this district with the exception of some field corn and clover which some of the farmers are preparing to plant.

Mr. and Mrs. Anderson and two small sons drove down from Calgary in their machine and spent the week-end with Mr. and Mrs. C. A. Johnson. Fred Gossett entertained the members of his S.S. class at a delightful birthday party on Saturday afternoon. Mr. Joe Hagerman was awakened on the night of May 18 to find his barn on fire. The flames had made such a head-way that neither the barn or contents could be saved. Fortunately the horses were in the pasture, but the harness and feed were burned. Origin of the fire is unknown.

### BALL LEAGUE

Organization Completed at Meeting at Stavelly

The first meeting for the purpose of organizing a baseball league, held at Vulcan on Friday of last week, was reported in our last issue. There was a second meeting of the representatives of the four clubs at Stavelly on May 24th. This meeting confirmed the action taken at the initial meeting and ensured the entry of Stavelly in the league.

The officers of the league are: President, W. Allen, of Stavelly; secretary-treasurer, W. K. Anderson, of Champion; executive, Robert Simington, of Vulcan; E. C. Webster of Stavelly; Robert Starr of Barons, Harry Sweet of Champion.

The secretary was authorized to make application to have the league affiliated with the Alberta Amateur Athletic Association.

The following rules and regulations and schedule were adopted for the operation of the league:

That the name of the league be the "Alberta Southern Baseball League".

That each club contribute \$5.00 to a fund in charge of the secretary for his expenses, surplus to buy a pennant if executive so decided later.

That all players must be registered with the secretary, and each new player must be registered at least ten days before he takes part in a game.

Each team is limited to 18 players registered at one time, lists to be sent to secretary at once.

In case of protests these are to be handled and ruled upon by the members of executive, who do not represent teams or towns concerned.

Each game is to be handled by two umpires, alternating innings between home and bases, each of competing team to nominate one.

Each team to carry official scorer, whose duty is to notify secretary of league of result of game by phone, or letter.

The schedule adopted is as follows:

May 31—Champion at Vulcan.  
Stavelly at Barons.

June 7—Vulcan at Champion.  
Barons at Stavelly.

June 14—Stavelly at Vulcan.  
Champion at Barons.

June 26—Vulcan at Stavelly.  
Barons at Champion.

June 28—Barons at Vulcan.  
Stavelly at Champion.

July 5—Champion at Stavelly.  
Vulcan at Barons.

July 12—Champion at Vulcan.  
Stavelly at Barons.

July 19—Vulcan at Champion.  
Barons at Stavelly.

July 26—Stavelly at Vulcan.  
Champion at Barons.

August 2—Vulcan at Stavelly.  
Barons at Champion.

All games are scheduled for Wednesday afternoon or evening. The schedule gives each team 10 games, 5 at home and 5 away. The four league teams will compete in a special league tournament in Vulcan on July 1.

### A CASE OF TEESING

Looks as though the marriage of Miss Steel, of Teeswater, Ontario, to Mr. McMillan, of Tees, Alberta, was simply the result of "teasing."

Blairmore Entervise.

### EMPIRE DAY

Why are flags up today? This was on May 23, and the question was the result of the confusion that there seems to be in connection with Empire Day and Victoria Day. The two days are separate and distinct, and the purposes of both are splendidly explained in the following from the Lethbridge Herald.

May 23, Empire Day, should not be confused with Victoria Day, May 24. While the latter is celebrated as a National holiday, Empire Day, which precedes it, has been set apart for the teaching of patriotism, particularly in the schools.

The idea of Empire Day was originated by Mrs. Fessenden, of Hamilton, sister of Judge Trenholme, of Montreal. Mrs. Fessenden was for many years a leading power in all patriotic movements, and the crowning height of her endeavors was reached when the Imperial government established Empire Day, which is now celebrated throughout the British Empire. The idea first came to her upon receiving a letter of condolence upon the death of her husband, Rev. E. J. Fessenden, an Anglican minister, which gave her great patriotic stimulus. She planned the idea of Empire Day and started the movement which soon spread all over Canada. Mrs. Fessenden died a few years ago at the age of 75 years. Her idea of Empire Day is expressed in a letter she wrote shortly before her death. She says: "The difference in day and date is explained by the fact that, Empire Day is kept a loyally educative one in our schools, which antedates the British and counts for much. If people would only think of Empire Day as the children's prelude to the national day, the grander harmony of the national anthem, there need be no conflict between the two days."

Empire Day is a truly Canadian Day, one of the few national days that Canada can boast as truly her own. On that account it should never be allowed to die out. This is the opportunity of the year to inculcate a patriotic spirit and refer to the great events in the history of Canada. The idea is that talks be given, particularly in the schools, on the British Empire, its extent, resources, advantages, privileges and past history. Historical incidents should be related and special reference made to Canada. What a wealth of material for such lessons is now available, from the life stories of Canadian heroes who took their share in the cause of the Empire!

Carrots are said to relieve asthma. Lentils are rich in soda and iron, and do not produce flatulence. Oranges have a reputation for benefiting consumptives. They must be taken repeatedly every day and at every meal. There are many ways of serving them. They are delicious peeled, piped, and the rough skin removed, then cut up, sprinkled with sugar and eaten with fresh cream. Pea-nuts are rich in fats and proteins and may be given to sufferers from diabetes. At the same time, when all is said and done, what suits one person does not suit another. It is a cook's business to find out what suits her client. "One man's meat is another man's poison."

### FOOD AND HEALTH

"A good coke," saith Dr. Andrew Boorde, 1536, in his "Dyetary of Helthe," "is half a Physycyon."

John Evelyn tells us in his "Accetaria" (1699): "We read of divers Popes and Emperors, that had sometimes learned physicians for their master-cooks; and that of old an excellent cook was reckon'd among the eruditi."

"There will come a time," a recent writer of note predicts, "when no medicines will be administered, except in acute and sudden attacks. Disease will be remedied by food."

Celery, for instance, is found to be so constituted as to be curatively efficacious for persons suffering from any form of rheumatism; also for nervous indigestion and kindred nerve troubles.

Onions are the best nerve strengthener known, no medicine being equally useful in cases of nervous prostration or so quick to restore and tone up a jaded physical system.

Carrots are said to relieve asthma. Lentils are rich in soda and iron, and do not produce flatulence.

Oranges have a reputation for benefiting consumptives. They must be taken repeatedly every day and at every meal. There are many ways of serving them. They are delicious peeled, piped, and the rough skin removed, then cut up, sprinkled with sugar and eaten with fresh cream.

Pea-nuts are rich in fats and proteins and may be given to sufferers from diabetes.

At the same time, when all is said and done, what suits one person does not suit another. It is a cook's business to find out what suits her client.

"One man's meat is another man's poison."
